

KC WATERPROOFING SOLUTIONS

FAST RESPONSE

We know you may have smaller foundation, structural and waterproofing repairs that need immediate attention. For these situations we're offering our Fast Response program. Give us a call and we'll send out a service technician right away. Fast Response services include:

- Crack repair
- Epoxy/Urethane injection
- Sump Pump installation, maintenance or repair
- Battery Back-up installation or repair
- Miscellaneous items including downspouts, freeze stops, minor grading (two yards max), window wells

Don't forget to ask your technician about our Deluxe Maintenance Plan for sump pumps.

Our technician will review the repair costs, which may include both labor and parts, with you before any work is done. If you decide not to have the work done there will be minimum charge.

Just give our office a call and ask for the Fast Response service. We look forward to solving your problem quickly and professionally. We're confident you'll choose KC WATERPROOFING SOLUTIONS again and you'll agree with our other happy customers that we're the most qualified problem-solvers in the business.
